### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been informally amended as follows:

In the Abstract, line 3, "comprising" has been replaced by "including";

In the Specification, page 3, line 29, "possess" has been replaced by "possesses";

Page 6, line 23, "spacer" has been replaced by "space";

Page 6, line 24, ~~--the--~~ has been inserted after "In", before

---

"present";

Page 6, line 26, "spacer" has been replaced by "space".

### Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The closest prior art of record, Hong (US 6,146,940) fails to teach or to suggest, either alone or in combination, the steps of: "coating a non-silicon-containing resist layer on the substrate of the transistor, with a level surface; coating a silicon-containing resist layer on the non-silicon-containing resist layer, with a level surface; patterning the silicon-containing resist and the non-silicon-containing resist layer to form a resist stacked layer with a contact plug pattern overlying the doping areas; forming an insulator layer using selective deposition process on the substrate unmasked by the resist stacked layer; and removing the resist stacked layer to expose the doping area, forming a

contact opening". Although Hong does teach a single layer of photoresist patterned over the doping areas, selective liquid-phase deposition to form the insulator and subsequent removal of the single layer of photoresist, Hong fails to teach the claimed resist stacked layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lynne A. Gurley whose telephone number is 571-272-1670. The examiner can normally be reached on M-F 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Niebling can be reached on 571-272-1679. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
